THE OVATION ADVANTAGE

OVATION's elite strategists are also storytellers who specialize in event content strategy from creation to production. This includes event portfolio analysis, strategic event auditing, content integration, distribution, success measurement and much more.

Our customer are our #1 priority. Rather than a single account manager, clients have an entire team dedicated to developing and managing the event flow from concept creation to execution. We facilitate the dynamic telling of a story that is 100% authentically you into an experience that your audience will never forget.

Top quality production services create the most unforgettable events. So we offer a wide range, including AV and lighting, digital signage, video shoot cut and show, and speaker recruitment and coaching, and 3D projection mapping. Plus our onsite 24/7 troubleshooting ensures worry free event execution.

OVATION leverages technology to create **"wow-worthy" event design**, including identity and branding, content production for screen, video editing, show production and scenic design, and more.

When **bringing your dream event to life**, we stay mindful of your budget. Because of our in-house creative and production teams, plus carefully cultivated vendor partnerships, we keep the entire process efficient and cost effective.

With a centrally located US headquarters in Nashville, plus **offices all over the country and around the world**, our partnerships with clients are not limited by borders or distances.

CUTTING EDGE TECHNOLOGY AND CONTENT MANAGEMENT LEADERS

For over a decade, **OVATION has been pushing the limits** of event automation and giving our clients the tools to make their lives easier. OVATION's revolutionary MARQUEE suite of content management solutions helps automate your event process. This centrally managed, cloud-based system collects and distributes content from presentations to digital signage assets, automates session records, live-streams and provides powerful analytics.

When paired with UNify, our new flagship breakout system, the result is **a seamless experience that is an industry first**. This purpose-built, all-inclusive system houses everything needed and more to support breakout sessions of all sizes and complexities. UNify is pre-configured, sets up fast, reduces labor and trucking costs and is extremely reliable.
